**DEFENDANTS' WHITMER AND GRADY'S NOTICE  
OF SUPPLEMENTAL AUTHORITY**

Defendants brief in support of its motion to dismiss mentioned that a motion for stay was pending in the Sixth Circuit Court of Appeals in the class action lawsuit challenging various provisions of the Michigan Sex Offender Registration Act. (ECF No. 15, PageID.71.) The motion for stay sought a stay of the final judgment, which was set to take effect on July 21, 2025. The Sixth Circuit granted the stay. (Ex A – Stay.) While the Plaintiffs in the class action lawsuit recently filed a motion for clarification with respect to the scope of the stay, any clarification should not have any impact on the “non-Michigan offense subclass” of which Plaintiff is a member.

Defendants Whitmer and Grady respectfully request that the Court take notice that the Sixth Circuit granted the stay related to the “non-Michigan offense subclass.”
